

Community Planning

Involving communities in planning

Nick Wates

www.nickwates.co.uk

author and consultant

publisher and site editor:
communityplanning.net

This session

1. Present a **simple framework** for addressing community involvement in planning.
2. Provide a **taster of the options** available.
3. Look at how one can develop a community **involvement strategy** for any particular situation.
4. Look at a few **case studies**.
5. Reflect on the implications for **Taipei**.

Why involve people in planning?

- Additional resources
- Better decisions
- Building community
- Compliance with legislation
- Democratic credibility
- Easier fundraising
- Empowerment
- More appropriate results
- Professional education
- Responsive environment
- Satisfying public demand
- Speedier development
- Sustainability

Definition

Community Planning = 'Planning carried out with the **active participation** of the end users. Similarly *community architecture, community design* and so on.'

(Community Planning Handbook, 2000)

- Scenarios

Community Planning framework

- Principles

Apply to almost any situation. Worldwide applicability

- Methods

Huge menu of different techniques and approaches

new ways of people interacting | new types of event | new support frameworks

- Scenarios

How one might use a combination of methods in a particular development situation – inner city regeneration, village improvement, creating a neighbourhood plan.

Principles

**Universally
applicable good
practice**

Principle: Involve all sections of the community

Ore Valley, Hastings, UK

Pakistan

People of different ages, gender, backgrounds and culture invariably have different perspectives. Make sure a full spectrum of the community is involved. This is usually more important than involving large numbers.

Principle: Work on location

Wallingers Walk, Hastings, UK

Kenya

Wherever possible, base community planning activities physically in the area being planned. This makes it much easier for everyone to bridge the gap from concept to reality.

Principle: Visualise

Wenceslas Square, Prague, before and after

People can participate more effectively if information is presented visually rather than in words. Use graphics, maps, illustrations, cartoons, drawings, photomontages and models wherever possible.

Methods

**How do you
go about it
in practice?**

Method: Interactive displays

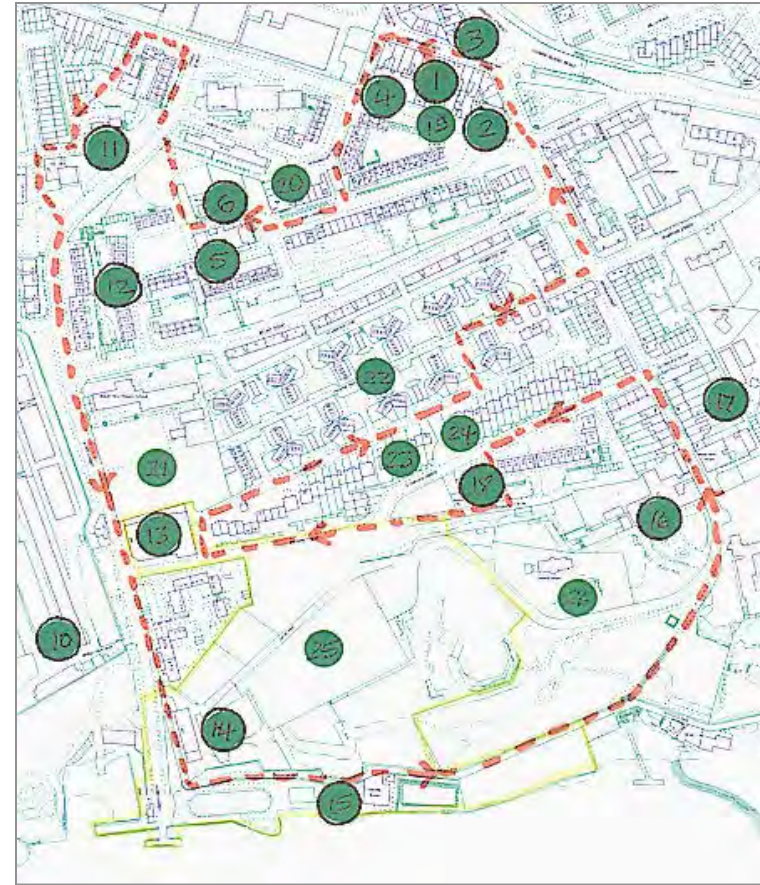

People engaging in the issues and debate, on their own and in an enjoyable way, by making additions or alterations to pre-prepared exhibits.

Method: Street stall

Makes it possible to secure the views of larger numbers of people than is possible indoors. Particularly useful where the views of people using a particular street or public space are wanted. Overcomes issue of people's reluctance to attend events.

Method: Reconnaissance trip

The inspection of the environment being dealt with by mixed teams of local people and technical experts. Used to familiarise everyone with the physical environment and key issues at the start of a project and to review progress at intervals.

Method: Briefing workshop

- Dislikes
- Likes
- Ideas for improvement

Simple, easy-to-organise working sessions where people work in small groups to identify key issues and possible solutions

Method: Design workshop

Hands-on sessions allowing small groups of professionals and non-professionals to work creatively together developing proposals.

Method: Models

Very effective for getting people involved. Particularly useful for generating interest, presenting ideas and helping people think in three dimensions. Lots of different kinds.

Method: Ideas competition

ANYTOWN 2050

Visions for Anytown Competition

**Open competition for the
best ideas for improving
the environment of
Anytown**

*What could be done
to make your street, your
neighbourhood, your town
centre fit for the year 2050?*

*How can we create a new
sense of vision to give our
town a much needed boost?*

**Over £1000 in prizes
to be won**

A good way of stimulating creative thinking and generating interest and momentum. They can be designed to allow everyone a chance to put forward their ideas.

Method: Draft plan consultation

Peterborough Station Quarter Development Brief Your views wanted

Exciting plans to create a dynamic new £500 million gateway to Peterborough on 22 hectares (54 acres) of mostly derelict and under-used land surrounding the city's railway station have been prepared by consultants for Peterborough City Council. They relate closely to the Council's 'Plan for Peterborough City Centre' and the development of the North Westgate area. After this consultation the proposals will be finalised and form a Development Brief to guide future development in the area.

Let us have your views on the plan by visiting the exhibition and completing and returning the questionnaire.

Open House Day
Saturday 27 August 2005
Queensgate Shopping Centre, Peterborough (outside Boots)
Consultants available to answer questions

Exhibition
22 August to 15 September 2005
Mondays to Fridays 10am to 4pm
The Foyer, Peterborough City Council Offices
Bayard Place, Broadway, Peterborough (opposite Central Library)
Exhibition available for viewing (but unstaffed)

Artistic impression of the proposed new Peterborough Station Square West

For further information on the plans and this consultation please contact:

Steve Scott, Project Manager
Halcrow
Tel: 01733 560033
scott@halcrow.com

Peterborough City Council contact:
Tim Funnell
Tel: 01733 453414
tim.funnell@peterborough.gov.uk

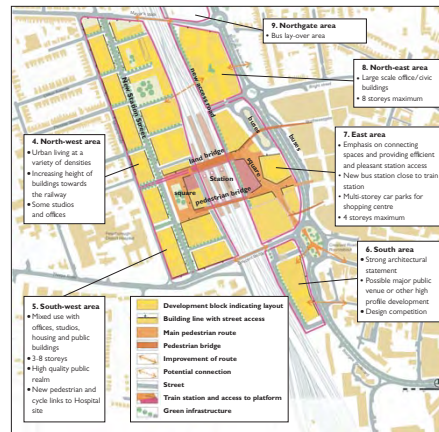

Main Proposals

- Station redesign**
 - Giving the station an entrance from both sides of the railway.
 - Two new broad pedestrian bridges as 'connectors' across the tracks.
- Public spaces and pedestrian routes**
 - Public squares in front of the station on both sides of the railway.
 - New neighbourhood park on the western side.
 - Improved pedestrian links from the station to all parts of the city centre.
- Traffic and parking**
 - Bourges Boulevard remains a traffic route but is landscaped.
 - New main north-south route west of railway (New Station Street).
- New access road running east of, and alongside, the railway.**
- New bus station arrangements.**
- Parking for rail users (up to 2,300 spaces) on each side of the railway, mainly in underground car parks; multi-storey car parks for the shopping centre (1,600 spaces) east of the railway.**
- Parking for new developments within development blocks.**

- 4-9. Development areas**
 - Six development areas identified, each to have its own distinctive characteristics (see below).
 - Sites earmarked for 'landmark' buildings.
 - Total area to be redeveloped: 10 hectares of net ground space

See the exhibition for more details

Questionnaire

Please answer the questions below and return by 15 September (no stamp required) or hand in at the exhibition. Thank you for your time.

How do you feel about the main proposals?	Strongly support	Support	No opinion	Oppose	Strongly oppose
1. Station redesign	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2. Public spaces and pedestrian routes	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3. Traffic and Parking	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4. North-west development area	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Brochure with information about project and involvement process.

Main proposals in words and graphics.

Tear off questionnaire with tick box AND open ended questions. Free postage.

Method: **Community planning event**

- Carefully structured collaborative event at which **all stakeholders**, including the local community, work closely with **specialists** from all relevant disciplines to make **plans for the future** of that community or some aspects of it. Often known as **charrettes**.

Method: Planning day

- Introductions and briefings
- **Briefing workshops**
issues and opportunities
- Plenary session
- **Lunch** and site walkabout
- **Design workshops**
options and proposals
- Plenary session
- **Next steps**
- Presentation/reception

Method: Planning weekend

Thursday

- Team arrivals

Friday

- Launch & introductions
- Reconnaissance
- Briefings
- Social event

Saturday

- Briefing workshops
- Design workshops
- Brainstorm dinner

Sunday

- Team working

Monday

- Team working
- Public presentation

Method: Open house event

Presenting design ideas to the public and securing reactions in an informal manner.

Less structured than a workshop; more interactive than an exhibition.

Drop in events are increasingly popular

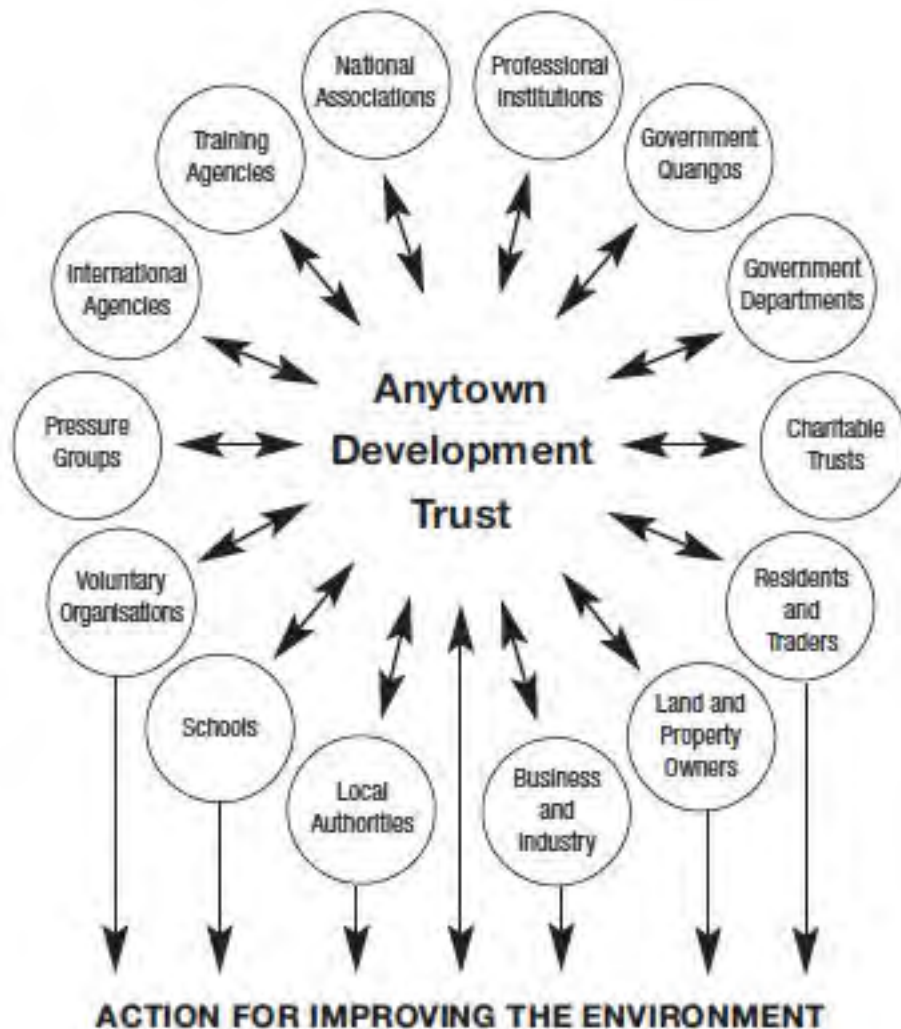

Method: User group

The creation or strengthening of user groups is a key element of most community planning. They act as clients in championing the views of those who will use the end product and keep the momentum going.

Method: Development trust

Development Trusts, also known as Community Development Corporations, provide a mechanism for communities to undertake regeneration and development themselves. They can be legally constituted to manage land and property. Community land trusts are a similar concept.

Method: Architecture and planning centres

Places set up to help people understand, and engage in, the design of local buildings and the built environment. Urban regeneration stations an interesting approach.

Ground floor: shop/exhibition

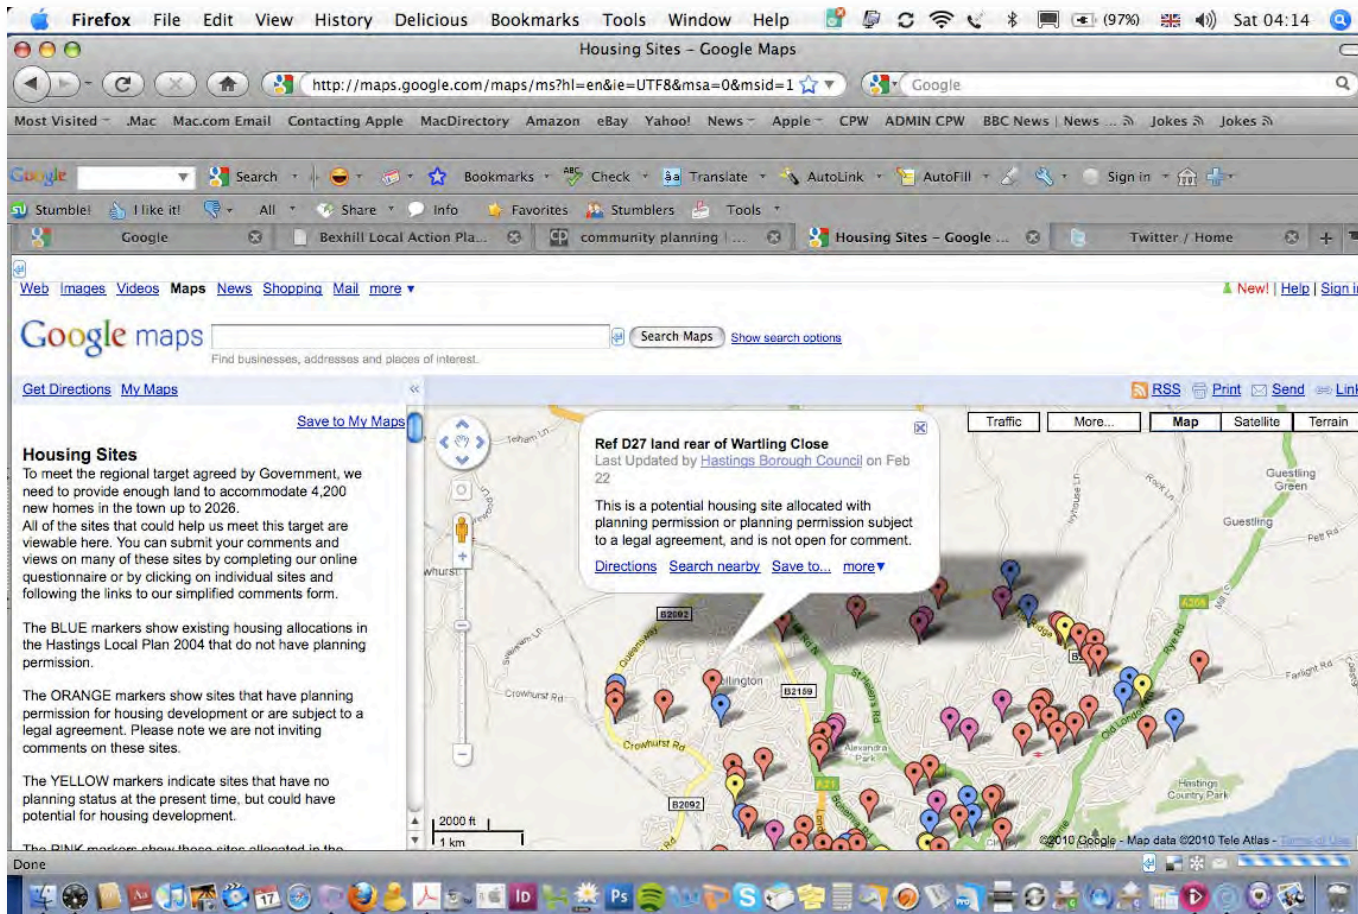

First floor: meetings room

Second floor: workspace

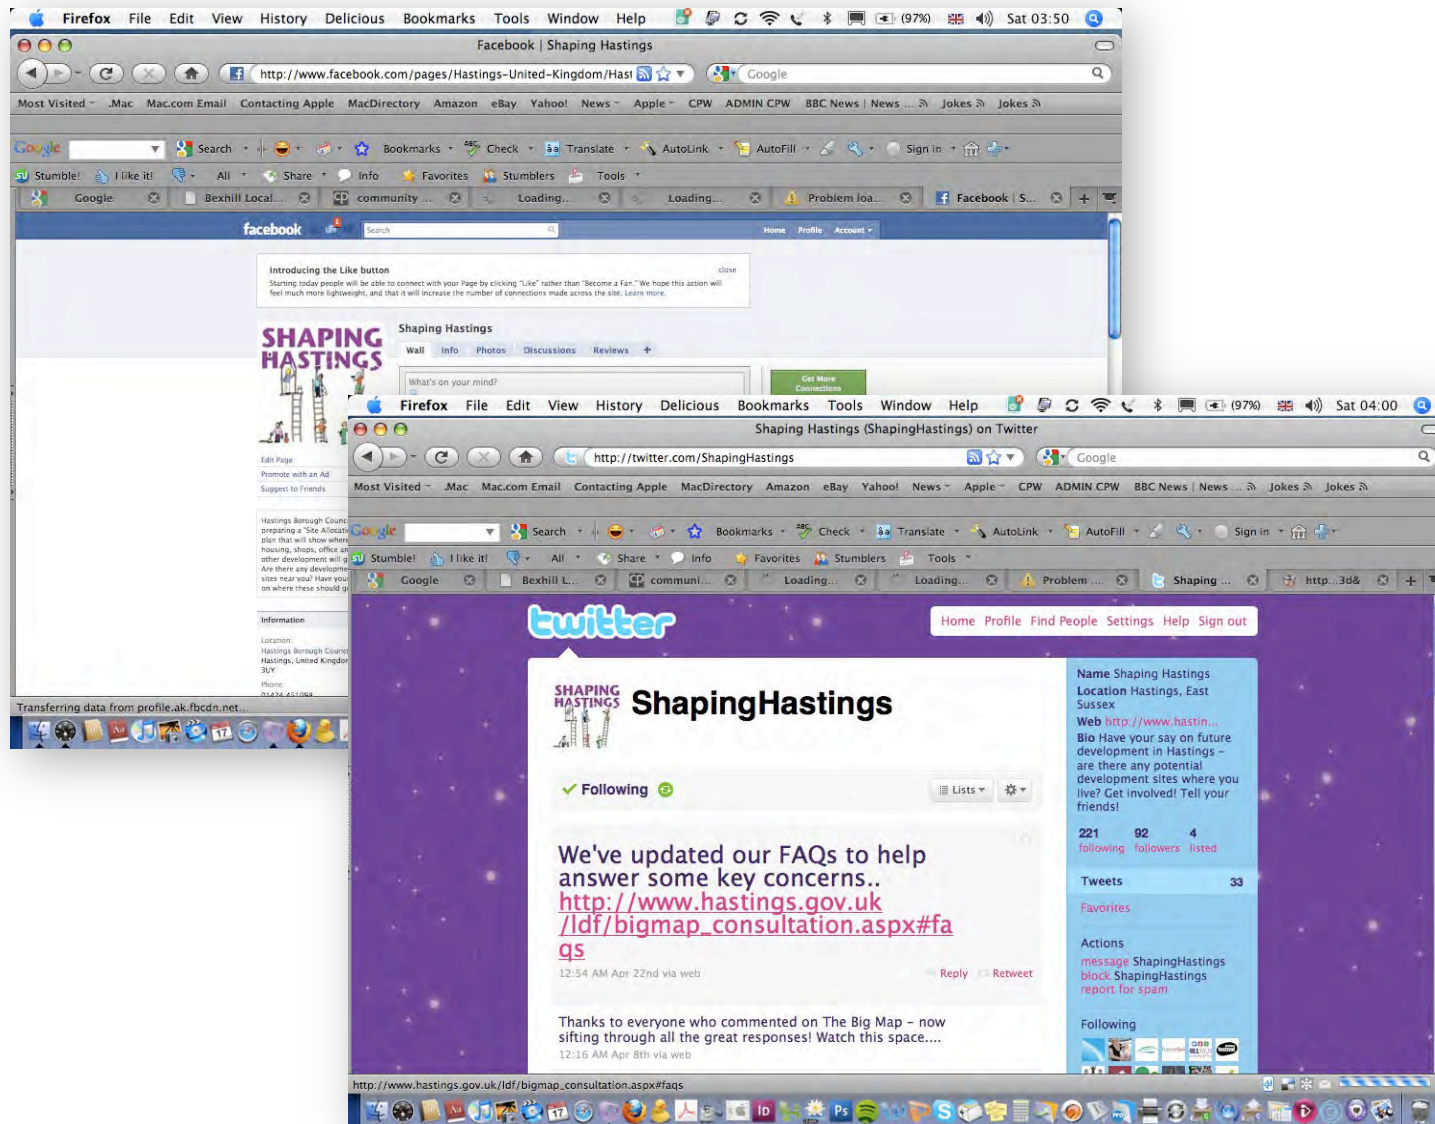

Online Method: Mapping

Now there is an online version of most previous methods, plus new possibilities.

Here is a Google Map being used to consult on potential housing development sites.

Online Method: Social networking

Can be used to generate interest in consultations and generate debate.

Different platforms reach different audiences.

Online method: Online consultation

Particularly useful for major infrastructure projects.

The screenshot shows the Viking Energy website with the tagline "Harnessing Shetland's Natural Resources". The "Get Involved" section is highlighted in the left-hand navigation menu. The main content area includes a "Please Register or Login" prompt, a welcome message for wind farm proposals, and a list of ways to show support, such as writing to the Council or local media. There are two images of wind turbines, each with a "Click here to view larger image" link. A login form is also present on the left side of the main content area.

Scenarios

**An involvement
strategy for every
development
situation**

Local neighbourhood initiative

months

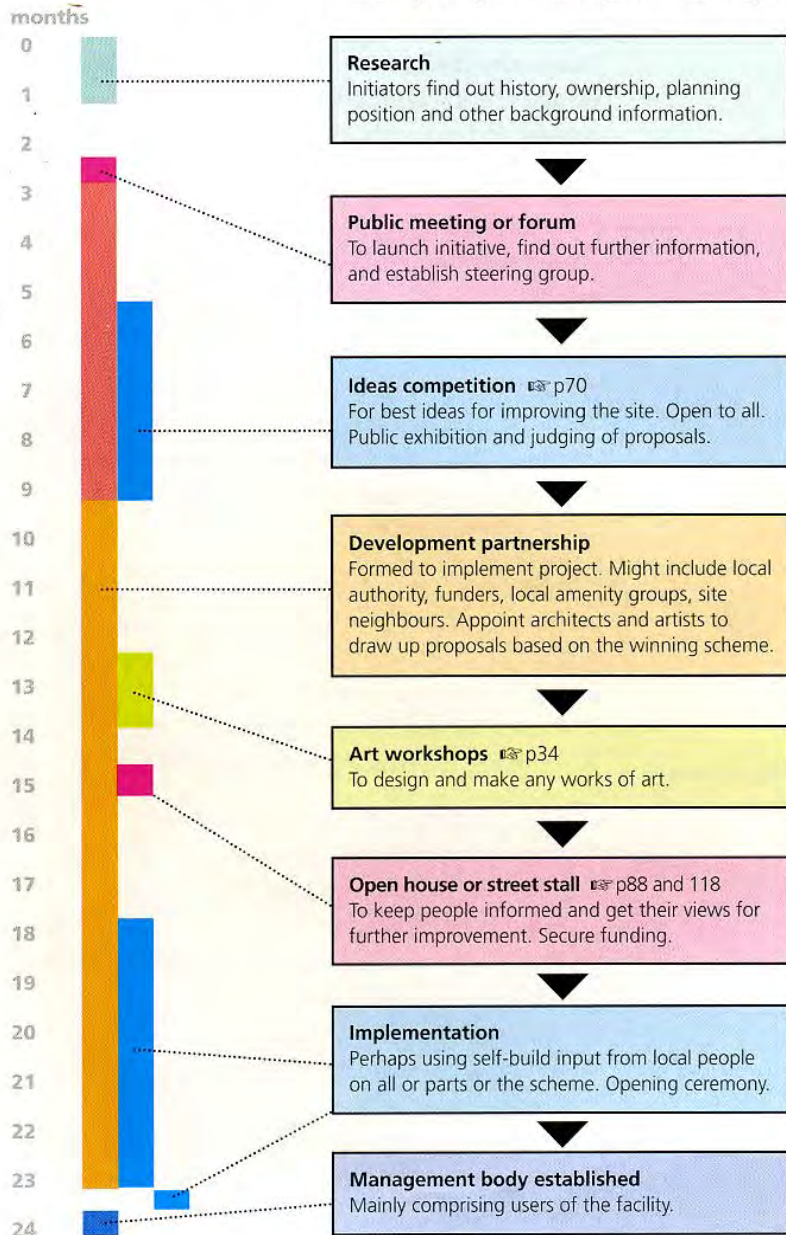

Scenario: Local neighbourhood initiative

Local people in a rundown neighbourhood and agencies working with them take the initiative to speed up the regeneration process.

- Process planning session
- Steering group
- Co-ordinator appointed
- Planning weekend
- Development forum
- Neighbourhood office
- Review session
- Development trust

Derelict site re-use

An initiative to make use of a derelict urban site in public ownership. Timescale assumes relatively simple option adopted such as a pocket park. A building would take longer to construct.

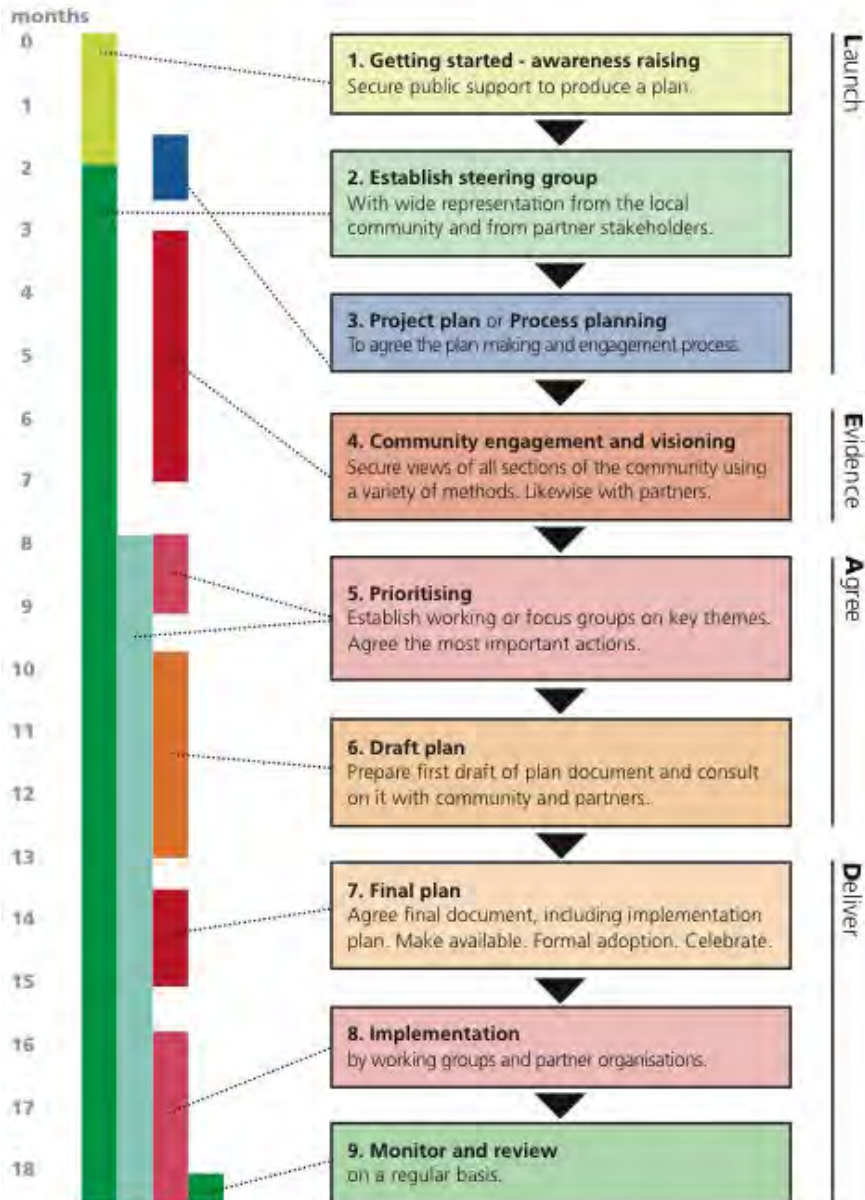

Scenario: Derelict site re-use

An initiative to make use of a derelict urban site in public ownership.

- Research
- Public meeting or forum
- Ideas competition
- Development partnership
- Art workshop
- Open house or street stall
- Implementation
- Management body formed

Community-led plan

Producing a parish, local action, community or neighbourhood plan from the bottom up.

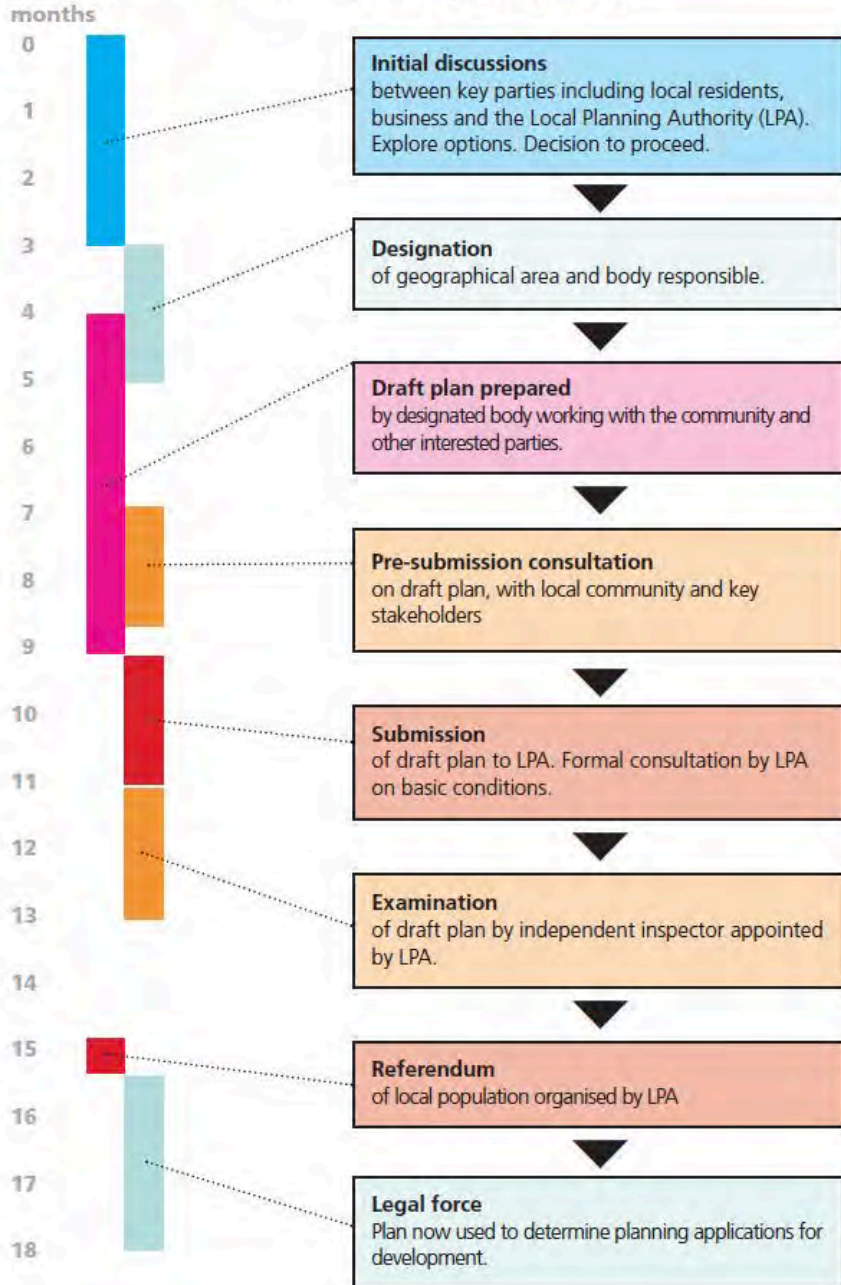

Scenario: Community led plan

Producing a parish, local action, community or neighbourhood plan from the bottom up.

Case study: Bexhill Local Action Plan

Context

- Client: Rother Voluntary Action.
- Brief: Advise and assist with consultation on the production of a Local Action Plan for Bexhill-on-sea.
- Provincial town by the sea, population 44,000, higher than average, and growing, proportion of elderly and iconic De La Warr Pavilion centre for contemporary art (parallels with URS).

Case study: Bexhill Local Action Plan

Approach adopted

- Work with local groups and agencies.
- Brochure to inform and stimulate interest.
- Questionnaire based on pilot work to find out people's views on a wide range of issues.
- Contact points in key locations throughout town.
- Close liaison with local press.
- 6 Drop-in Have Your Say Events in various parts of the town.
- Results website - www.Bexhilllocalactionplan.co.uk

Case study: Bexhill Local Action Plan

Results

- Over 1300 completed questionnaires returned at over 20 collection points.
- Over 5,000 written comments submitted.
- Over 400 people attended one of the Have Your Say events.
- People of all ages and from all parts of Bexhill took part.

Case study: Hastings Future Consultation month

- Joint publicity by all agencies
- Information brochures and websites with feedback mechanisms.
- 4 big staffed exhibitions
- 5 local events
- 3 big public meetings
- Briefings for key interests
- Training of community consultants
- Hard to reach groups
- Schools and youth
- Citizen's panel
- Voluntary group conferences and meetings
- Regeneration Centre

towards a masterplan

for Hastings and Bexhill

A 30 year vision for Public Consultation

Prepared by H&B Architecture and AJ Urban Studio

Hastings Millennium Community

Hastings Millennium Community is an exciting project to create vibrant neighbourhoods on under-used land near train stations.

It is one of seven projects selected by the Government to demonstrate new, sustainable approaches to 21st Century living from which others can learn.

The Hastings Millennium Community project is the only one by the sea. It will take place in six separate areas - covering 320 acres - around existing and planned new railway stations, linked by a metro rail service running on existing track.

Detailed plans for each area will be drawn up during 2003, fully involving the local communities.

The first new homes will be completed in 2005 and the whole project by 2012.

November 2002

Better Living in the 21st Century

- 1000 OUTSTANDING NEW HOMES**
Mix of style, size and tenure to suit local needs, including homes that you can live and work in and self build homes. 30% will be 'affordable'. All will have broadband internet access.
- COMMUNITY FACILITIES**
Shops, health, leisure and employment facilities.
- ENVIRONMENTAL IMPROVEMENTS**
New parks, gardens, public squares, paths and cycleways.
- HIGHEST DESIGN QUALITY**
In all aspects of the project. Fresh modern designs by the best architects.
- COMMUNITY INVOLVEMENT**
In planning and design of homes and facilities. Local jobs created.

Hastings & St Leonards Community Strategy

November 2002

your ideas

As promised in 'The Future of Hastings & St Leonards', this strategy is your chance to make sure that our ideas for a better quality of life in the town reflect yours.

Read it carefully, tell us if we've missed anything out and make your vital contribution to the most important debate in our lives.

St Leonards on Sea is one of the finest seaside towns in England, its spectacular seafront and attractive, remarkably unspoilt, Georgian, Regency and Victorian townscape make it a potential jewel on the south coast.

But it has suffered from neglect for many years and has unacceptable levels of poor housing, unemployment, crime and bad health.

So Hastings Borough Council is thinking of declaring a second Housing Renewal Area, building on the success of the first one around Southwater Road.

This would help focus resources on the regeneration of the area. It would also be a useful complement to the Hastings Millennium Community Project's proposed 50 new homes for the area, and the Masterplan idea to create a centre for arts and design in St Leonards.

Before making firm decisions, the Council wants to know what you think about the idea, your views on the boundary proposed for a second Housing Renewal Area, and your ideas on priorities for action.

Please take the time to read this leaflet and respond using the questionnaire provided.

Renewing St Leonards on Sea

November 2002

Would you like Housing Renewal?

GENSING AND CENTRAL ST LEONARDS LOCAL ACTION PLAN

Produced with the Gensing & Central St Leonards Community Forum

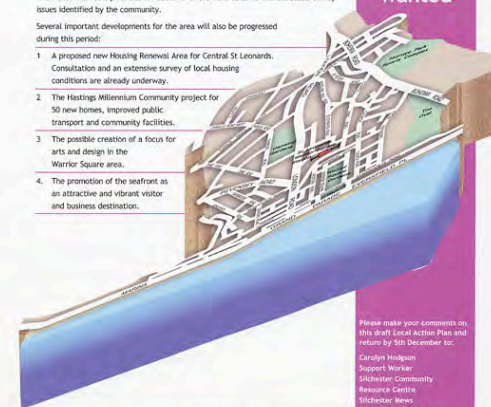

This is our draft Local Action Plan for Gensing and Central St Leonards. It is based on a fuller list of priorities drawn up by the Forum.

After consultation with local residents and with the service providers it will be revised and finalised. It will then become part of the overall Community Strategy for Hastings & St Leonards.

The Action Plan sets priorities for action over the next 12 to 18 months based on key issues identified by the community.

Several important developments for the area will also be progressed during this period:

1. A proposed new Housing Renewal Area for Central St Leonards. Consultation and an extensive survey of local housing conditions are already underway.
2. The Hastings Millennium Community project for 50 new homes, improved public transport and community facilities.
3. The possible creation of a focus for arts and design in the Warrior Square area.
4. The promotion of the seafront as an attractive and vibrant visitor and business destination.

your views wanted

DON'T FORGET! Your local consultation event - this Saturday 30 November at Seaford Community Resource Centre, Seaford Road, St Leonards-on-Sea 10 am to 5 pm. Exhibitions on all the new plans for Hastings & St Leonards and people to answer your queries. Refreshments available and a children's play area.

Please make your comments on this draft Local Action Plan and return by 15th December to:

November 2002

A Safer Town

our ideas

Everybody wants to see a safer town where crime is under control and people don't have to live in fear of it.

The problems:

- Despite a general fall in crime levels, the town's crime rate is considerably higher than the national average.
- Violent crime continues to grow much of this is alcohol related particularly in the Town Centre of meetings to St Leonards.
- Crime in the Town Centre may put off future investors and damage job creation.
- Young people commit the most crime and are most often the victims of crime.
- Widespread crime such as racial assaults and domestic violence.

Some solutions:

- Anti Social Behaviour Orders (ASBOs) to reduce people whose behaviour is making life intolerable for others.
- Proposing on neighbourhood policing to increase citizen contact between the police and the community.
- Tackling public disorder and drunken behaviour in the Town Centre through targeted policing (supported by the police warrants) and proactive use of licensing powers.
- New ways of diverting young people away from criminal behaviour and drug abuse.
- Continuing to drive down burglary and car crime and developing work with businesses to reduce the impact of crime on shops and factories.
- Monitoring crime to identify hot spots, with all agencies talking to each other and working on local solutions.
- Tackling 'hate crime' - particularly racially aggravated crime and harassment.

Proposed targets:

- Reduce the gap between Hinkley & St Leonards and the rest of the country (currently this means reducing recorded crime from 145 to 130 crimes per 1000 people).
- Create safer, people friendly town centres, halving the number of people who are currently worried about walking in town areas at night.
- Ensure that people reporting 'hate crimes' are satisfied that their case is properly dealt with.

Comment on your ideas and add yours in the boxes below.

- Do you like the proposed **Wuxi** plan ideas?

	Yes	No	Not sure
1) Atkinson Community	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2) Wuxi rail services	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3) Country Avenue	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4) Sea Avenue	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5) University Centre	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6) Arts Quarter	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
7) Beach Community	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
8) Countryside Park	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
9) Wuxi Gateway Community	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

It would be useful to know what **people** prefer or dislike. For instance, you may like the idea of a countryside park but not the proposed site. Or you may be against a beach community, as **Bournemouth** has, in favour of re-aligning the A204 in that area.

Which specific details do you like the most and why?

Which specific details do you like the least and why?

What else could be included in the **Wuxi** plan?

Planning Workshops 19 and 20 September 2003 – All Welcome

Scenarios: Historic inner city renewal

What are the
challenges for Taipei?

What might your
scenarios look like?

What combination of
methods will work best?

Who should be involved
and when?

A planning consultancy wants to work with local residents, businesses and the city renewal agency to develop a more creative approach to urban regeneration and renewal.

Initial thoughts on Tapei

- **Monitor** to check that acupuncture approach hits strategic goals.
- Explore potential of **social enterprises** and **community development trusts** to increase sustainability of initiatives.
- Deeper engagement with **key target groups** (eg elderly, homeless) to involve them in regeneration process.
- More **outreach**

Evolution - the story so far

- 1950s** – Professionals start working with urban poor in developing countries.
- 1960s** – Advocacy Planning - USA. Charrette programme - USA. First official government inquiry into public participation in planning - UK.
- 1970s** – Pioneer practitioners. International networking. Professional aid schemes.
- 1980s** – Royal endorsement by Prince Charles. UN backing. Support from professional institutes.
- 1990s** – Institutional development in most sectors.
- 2000s** – Mainstream activity – to varied degree.
- 2010s** – Neighbourhood planning introduced into formal planning system as part of Localism and Big Society agendas - UK. Acupuncture approach - Taiwan.

Evolution – some issues

- Continuity of **projects**
- Continuity of **funding**
- Lack of **evaluation** to provide **evidence** of what works and what does not.
- Engagement approaches to suit the **community not planners.**

Evolution - what next?

Involving communities in planning

- Engagement **strategy** the key.
- **Ever-expanding menu of methods** to suit aims and resources.
- Huge **potential of internet**.
- **Climate change increases need** for community planning.
- **Build on previous work** by many people and groups all over the world and **be creative**.
