School project

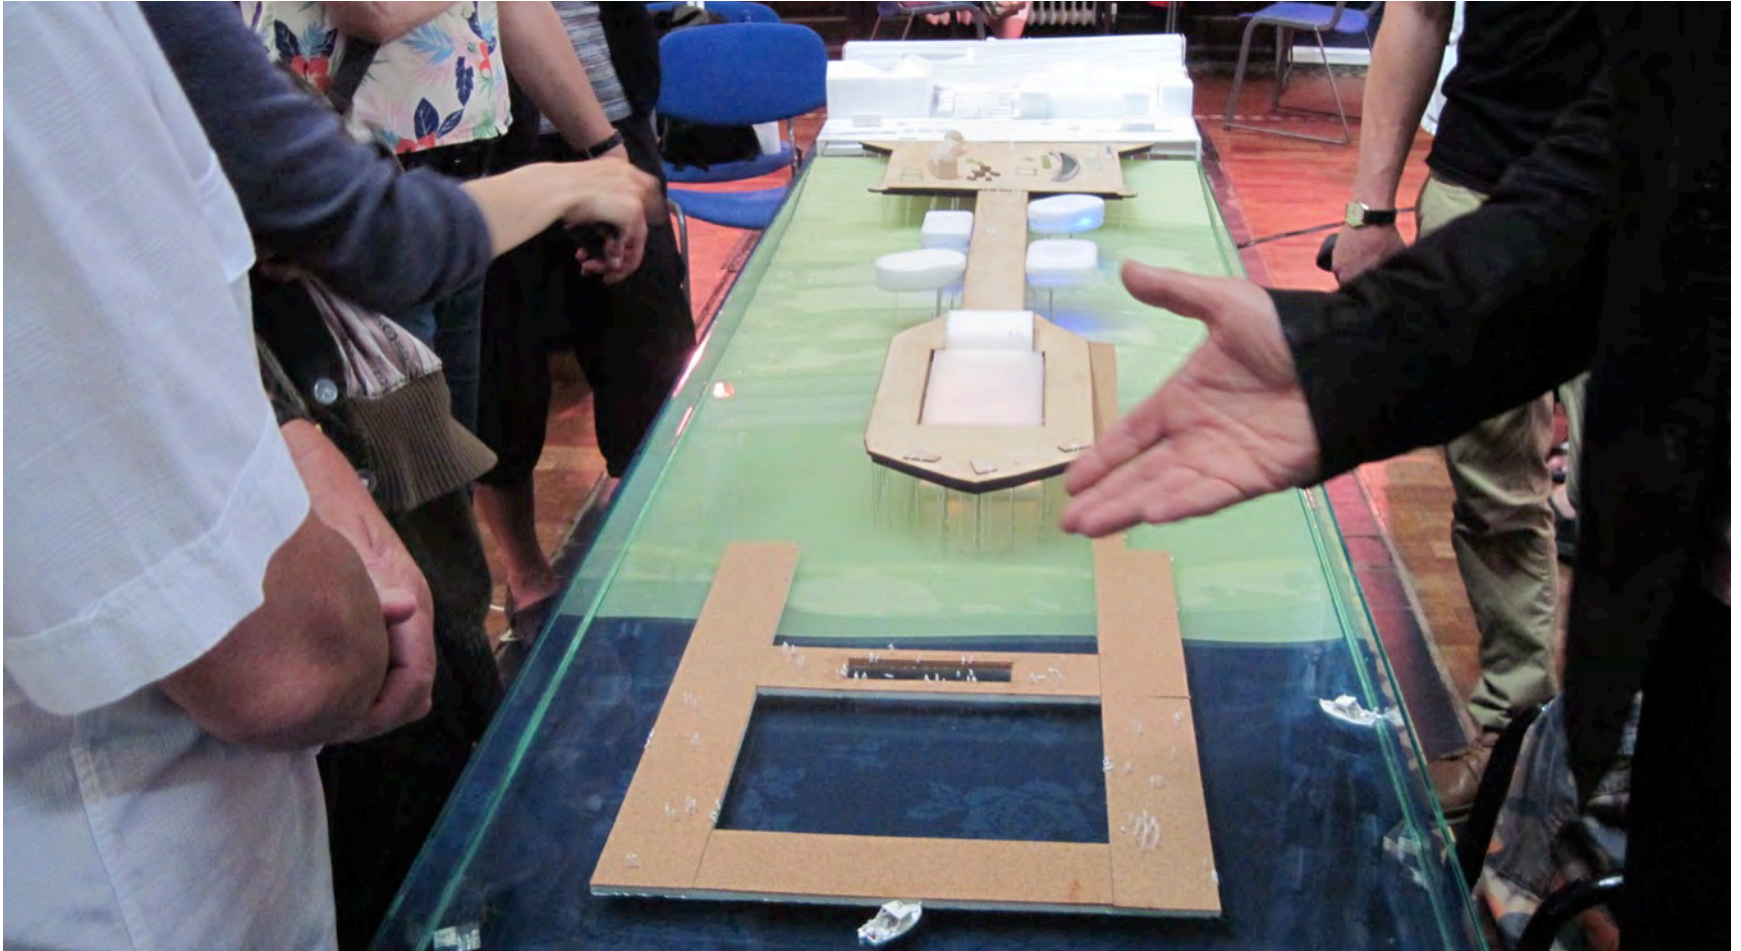

A large, detailed model of a coastal town built on a blue base, featuring various buildings, a pier, and a lighthouse. The model is surrounded by numerous small signs and cards, many of which are handwritten and display the names of local schools and community groups. A large sign in the foreground reads "ELPHINSTONE COMMUNITY SCHOOL". The model includes a prominent pier with a lighthouse, several buildings, and a small boat. The signs are placed around the model, some on the base and others on the buildings. The signs are of various colors and sizes, and many are handwritten. The overall scene is a creative and detailed representation of a coastal town.

Wind farm

Romney March, East Sussex, 2011

Model

Consultation, St Mary in the Castle, Hastings, 2011

Energy café

Come to our Energy Café

**Saturday 27 October 1-4pm
& Thursday 8 November 3-6pm**

**At: WI Hall, Houghton Green Lane,
Playden, East Sussex TN31 7PL**

**Drop in when you can
Tea and cake
Short presentation at 2.30pm
Children are welcome**

Is your house cosy enough in the winter?

Are you spending too much money on energy bills?

Find out how to keep your family warm & healthy

East Sussex companies attending:
Downs Energy (insulation)
Chris Bartholemew Electrics (heat pumps)
ECO NOW (solar PV)
DH Solar engineering (Solar thermal)
Bio-energy Technology (wood boilers)

Find out more about:

Home insulation

Save money on bills and stay warm in winter! Talk to the experts. See what offers are out there. Find out about the 'Green Deal'.

Community energy projects

How you can help local schools and village halls generate energy and income for the whole community.

New energy generation and heating systems

The latest innovations... Demonstrations (solar PV, solar thermal systems, wood boiler, heat pumps – air source and ground source). Your questions answered.

Rother Renewable Heat Project

WANTED! – at least 15 volunteers without mains gas to pilot energy saving measures in your homes. Grants available. Warmer homes for less money. Arrange a free energy audit of your home.

Funded by:
The Department of Energy & Climate Change (DECC) under its Renewable Heat Incentive (RHI) programme.
Public consultation:
Rother Water Association
